

Class D distribution box

Overview

A series of control and distribution panels made from aluminum. Ex d and Ex tb certified for installation in explosion-hazardous areas. Suitable for use in gas group IIB+H 2 environments. These sturdy solutions are certified according to global standards such as ATEX, IECEx. ROSE supplies flameproof enclosures in various sizes and types for use in various gas groups and service-temperature ranges. The enclosure experts from Porta Westfalica thus provide industry with a broad range of solutions for the safe and reliable encapsulation of electrical equipment. We offer bespoke, custom-made terminal boxes and terminal box combinations, as well as standard products with short delivery times. 316L stainless steel, GRP or aluminum, they provide IP66-IP68 protection and resist from -60°C to $+120^{\circ}\text{C}$. Delivered pierced tailor-made and pre-equipped. Thorne & Derrick International, based in the UK, are the leading designers and suppliers of Control Panels & Distribution Boards for hazardous areas and explosive atmospheres from market-leading brand including Pepperl+Fuchs - a comprehensive range of Explosion Proof control panels are available.
