

Congo Tail Fiber Channel Company

Overview

TITC DRC Ltd is to connect the world to Africa via ultrahigh speed fibre optic cabling. This ground-breaking project will bring previously unthought-of, lightning-fast internet speeds to the continent at a significantly lower cost, thereby empowering individuals and companies across. Established in September 2020, Silicone Connect is an optical fiber infrastructure operator and an internet service provider in the Republic of Congo. It operates an optical fiber network between Pointe-Noire - Brazzaville and Brazzaville - Owando, with metropolitan loops in Brazzaville and. The aim of the Central African project is to establish an interconnection on a 620 km line, linking the Democratic Republic of Congo to six neighboring countries: Angola (including Cabinda), the Republic of Congo, Zambia, Burundi, Rwanda and Uganda. This initiative aims to strengthen the region's. FIBER OPTIC SERVICE YAO Corp Group has been the concessionaire of the National Fiber Optic Backbone since 2020 in Brazzaville - République of Congo and operates it under its subsidiary SILICONE CONNECT. SILICONE CONNNECT is a new fiber optic infrastructure operator in the Republic of Congo. The Congo Component for the Central Africa Backbone (CAB) Project is initiated for the establishment of 550 kilometres of optical fibre cables on the interconnection links with Cameroon and the CAR and the establishment of a national data centre (Datacentre).
