

Data Center Micro-Module Brands

Overview

Some of the top manufacturers of modular data centers include HPE, IBM, Eaton, Schneider Electric, Huawei, Dell, Vertiv, and others. Designed for rapid deployment, efficiency and resilience, these prefabricated solutions are at the heart of digital transformation — from AI and edge computing to hybrid cloud strategies. Here we highlight the top 10 companies leading the modular data centre revolution, ranked by market leadership. A modular data center consists of a prefabricated data center module, including servers, racks, power supply, networking, backup, cooling, and monitoring systems that are portable and quick to assemble and deploy. Unlike traditional data centers, which are typically custom-built and require extensive planning and construction, modular data centers are prefabricated. Northstar Enterprise and Defense has been ranked among the Top 10 Modular Data Center companies in the USA, a milestone that would not have been possible without our incredible team.
