

Distribution box GVS

Overview

The Distribution System or Line Divider – GVS Quadruplex is moving above the conveyor and installed next to the conveyor whereby it takes up only little space. It consists of a turning mechanism with four transfer units that rotate repeatedly in one direction. Founded in 1999, GVS is one of the earliest enterprises engaged in intelligent building solutions in China. GVS provides smart solutions and products for high-end residences, commercial spaces, and large-scale buildings worldwide. 27x5mm for drainage and rapid freezing. Leihgerät für die Dauer der Reparatur - Pfand wird erstattet nach Rücksendung des Leihgeräts inkl. One/Two output channels, 64 DALI devices per channel, each DALI device can be individually switching, dimming, set brightness value, colour control, etc. Multiple device types are available, such as DT6-LED dimming control device, DT8-colour control device, colour control type including RGB. Since 1999, GVS has been focusing on building control technologies, offering it's worldwide clients with quality products and professional services.
