

Fiber Optic Router Access Settings

Overview

To set up your router for fiber internet quickly, connect the router to your fiber modem, access the router's settings via a web browser, and input the provided ISP credentials. Make sure to update the firmware, configure Wi-Fi security, and customize your network name for optimal performance. However, setting up a fiber optic connection to your router can seem daunting if you're unfamiliar with the process. Since the FRITZ!Box establishes and controls its own internet connection, all FRITZ!Box functions (such as the firewall, parental controls, MyFRITZ!) are also. I need information on what settings I need to configure on my router to access Internet via fiber optic modem. As far as I understand, I need a PPPoE username and password to connect. I never received it from Telekom, as well as Access number (Zugangsnummer).
