

Fiji Access Switch 800G

Overview

Now shipping to customers worldwide, this open network switch offers 64-port 800GbE interfaces in a 2RU fixed box, delivering high performance with complete L2 and L3 forwarding features for modern, large-scale data center networks. A next-generation, highest-capacity switch for data center spine use case. Breakout options include 2 x 400G, 4 x 200G, and 8 x 100G per port, with a maximum of 160 logical ports. Offers reduced. Traditional 400G Ethernet is increasingly inadequate for handling massive workloads efficiently. 800G Ethernet emerges as the next-generation networking technology, delivering unparalleled bandwidth, improved energy efficiency, and scalable architecture to meet the demands of AI, cloud computing. Our UfiSpace 800G networking solutions, featuring the standalone Tomahawk ® 5 Ethernet Switch Series and the Distributed Disaggregated Chassis (DDC) equipped with Jericho3 and Ramon3, are designed to meet the rigorous requirements of AI-driven environments. It features 64x QSFP-DD800 ports and offers scalable, efficient network management. The Edgecore DCS560 / AIS800-640 is a high-performance, low-latency. Please choose from the categories below:.
