

# Gulf Region Enterprise-Grade Optical Router SFP

## Overview

The SFP-10G-SR is the most widely used 10G short-range transceiver in enterprise and service provider networks. It runs over multimode fiber and is ideal for in-rack or intra-datacenter connections. AE with same-day delivery options in Dubai and Abu Dhabi. This long-range. SFP modules (Small Form-factor Pluggable transceivers) represent critical network components enabling fiber optic and high-speed copper connectivity, long-distance transmission, flexible interface options, and network scalability determining whether organizations achieve optimal network. The UAE and Saudi markets are booming with data-center builds, enterprise network upgrades, and carrier rollouts — and that makes sourcing the right SFP modules and optical transceivers a critical procurement decision. Whether you need OEM-branded modules from Cisco/HPE or high-quality compatible. Huawei OptiXstar S600E is a miniature GPON SFP ONU device that can be inserted into the SFP port of a camera or AP device to provide GPON access for the device to meet the requirements of video backhaul or wireless backhaul. The HP 10GbE SFP+ LC SR Optical Transceiver Module delivers. There is a Cisco SFP-10G-ER-S Compatible 10GBASE-ER SFP+ 1550nm 40km Transceiver available under its part number, which is SFP-10G-ER-S. This Cisco device is offered by Shouki Electronics, the Cisco partner.
