

High-Precision Installation Solution for Tunisian High Voltage Complete Sets of Equipment

Overview

This solution covers a complete set of power equipment from low-voltage distribution cabinets, high-voltage switchgear to transformers, automation control systems, etc., aiming to provide comprehensive and customized power solutions for various users. In the medical sector all efforts are focused on patients and their healing. Even a very. Introduction : Earthing is a fundamental principle in any electrical installation. It ensures personal safety Harmonic currents in electrical networks affect power quality and are the cause of many disturbances such Golda Electric : Tunisian supplier of quality electrical. SOTEME is a company established in 1981, holding a leading position in the Tunisian market in the wholesale trade sector of electrical equipment and materials. SOTEME SOTEME is also the exclusive distributor of several internationally renowned brands in the industrial electricity and building. SOGELEC stands out as a major player specialized in electrical installation in the construction sector, with a significant presence in Tunisia and the Maghreb region since its foundation in 1972.
