

How much does a 4-core fiber optic cable for low-voltage applications cost

Overview

Looking at a typical 4 core fiber optic cable price list from OWIRE, prices start around \$0.40 per meter for basic indoor distribution cables and can go up to \$1. Single-mode fiber costs less per foot than multimode fiber, but it requires more. The actual price of such cables varies significantly based on several factors including cable type (single-mode vs. multimode). This guide presents ranges in USD and practical price estimates to help. Single-mode fiber (OS2): This is the industry workhorse. The price swing usually depends on the fiber count (e.g., OM3 vs. OM4). Generic. Knowing how much fiber optic cable costs, which factors can impact cost, and key cost considerations can help you avoid unnecessary expense and get the most out of your budget. Several fiber cables are available, each with a different cost based on fiber type, construction, and application.
