

# How to automatically generate cable tray bends in CAD

## Overview

For cable tray: Click in the Add Cable Trays dialog box. Here is the simple solution Create two type : 90 elbow and 45 elbow In the real world, to make a 45 elbow, we need two segments, to make a 90 elbow, we need three segments I've also tried to use some geometry forms in revit but no hope. 11-09-2024 01:19 AM Thank you, anyway I will mark your. Creating and managing cable trays in AutoCAD Plant 3D is essential for effective electrical project management. Initiate a New Project Begin by launching AutoCAD Plant 3D. Before routing, consider the following guidelines: Cable tray lines are continuous, consisting of interconnected straight cable tray pieces and. how to create 2d dynamic block like the attached drawing?

03-29-2018 08:00 AM There are many informative tutorials online about the process of creating dynamic blocks. Hope that helps you on your way. Select a containment product and define alignment, elevation, offset, and bend and branch types and you are ready to start modelling.
