

How to use the magnetic fill light module

Overview

This video provides a comprehensive guide on how to install, operate, and charge the Hohem Magnetic Fill Light. The iSteady XE's fill light supports three-color temperature options (cool, warm, natural) and ten levels of brightness adjustment, allowing you to add light to your shots anytime, anywhere. Quick, magnetic & detachable installation. Learn to properly attach the light to your mobile setup, cycle through cold, warm, and natural light modes, adjust brightness levels, and understand the charging status indicators. • Power On/Off Long press the M button. [com/shop/bestb](https://www.hohem.com/shop/bestb) Enhance your content with the SHEGINEL Magnetic Fill Light, a versatile lighting solution designed for creators on the move. Whether you're vlogging, live streaming, or capturing the perfect selfie, this compact LED light offers adjustable.
