

# India installs 1G core switch

## Overview

NEW DELHI: Homegrown networking gear maker and real estate firm Umiya Buildcon on Thursday launched the MRO-TEK-branded Cornus 1G switches for deployment in telecom networks, internet service providers (ISPs), public sector firms, industrial enterprises, and railways. Umiya Buildcon Limited a publicly listed dual-sector company, announced the launch of its MRO-TEK CORNUS Family 1G Switches, developed in India to meet the growing demand for secure, high-performance networking solutions. The CORNUS switches, built with over 65% local content and qualifying under Class 1 of DPIIT's Make in India policy, have been designed and developed in-house, incorporating the. HMWSSB-Revenue & Stores Circle India has Released a tender for Supply And Delivery And Installation Of Two Core Switches (1G Port With Fiber Modules) And L3/L2 Location Switch With 48X1G, 24X1G Ports And 4X10G (Fiber/Copper Ports In Replacement Of End Of Life Devices For Optimal Utilization Of. Designed for enterprise applications, the EPS and AS4600 series are high-performance Gigabit Ethernet access switches, featuring between 30 and 54 ports. The 1G series also excel as management switches, with PoE models supporting up to 90W.
