

Indonesia AI Computing Server

Overview

Google Cloud and Equinix's latest data center expansion in Jakarta is expected to help Indonesia achieve its goal of becoming an AI powerhouse in Southeast Asia. Jakarta, Indonesia, 4 December 2024 — BDx Indonesia, a joint venture between Indosat Ooredoo Hutchison (Indosat or IOH), Lintasarta, and BDx Data Centers (BDx), has recently launched an AI data center park in Indonesia. The phase 1 deployment of the renewable energy-powered CGK4 AI campus is. Lintasarta, Indonesia's leading ICT (Information and Communication Technology) total solutions company, today announced its latest product, GPU Merdeka, at its launch event at the Kempinski Hotel, Jakarta. A GPU-as-a-Service (GPUaaS) for AI infrastructure, GPU Merdeka is a sovereign AI cloud. Southeast Asia now hosts more than 2,000 data centres across Indonesia, Malaysia, Singapore, Thailand, Vietnam and the Philippines (Ember, 2026), with hundreds more under construction and over a thousand in planning. Indonesian capital Jakarta is experiencing a surge in AI computing power, as US tech giants Google Cloud and Equinix made separate.
