

# Installation of Aerial Optical Cable Joints

## Overview

Many different methods are used for cable installation. These include pulling, blowing, and pushing into ducts, direct burial, and aerial installation. LASHED TYPE FIBRE OPTIC CABLES ADSS (All Dielectric Self Supported fibre optic cables) OPGW (Optical Ground Wire) The installation methods for fibre optic cables are largely the same as those with conventional copper cables. Failure to do so can result in life-threatening truck or on a ladder so that it cannot fall. Materials and equipment should not be used for in your company's safety procedures and, if necessary, lineman's rubber gloves. Use the leather gloves when. Recommendations for Fiber Optic Cable Installation Where reels are supplied with protective material fitted over the cable, the protection should remain in place until the cable will be installed. During installation, all curvatures should be smooth.
