

Madagascar Fiber Optic Cable Project

Overview

What is set to become the world's largest submarine cable system, 2Africa, has made another African landing, this time in Mahajanga in Madagascar, as it works its way up Africa's East Coast. Madagascan operator Telma and global operator Vodafone joined forces to connect Madagascar to 2Africa this. Alcatel Submarine Networks (ASN) is responsible for deploying this 45 000-kilometre cable system, designed with a capacity of 180 Tbits per second, it will interconnect 33 countries in Africa, Europe, and the Middle East. Delivering more than the total combined capacity of all subsea cables serving. The launch of 2Africa enables us to offer our customers seamless connection between Africa and Europe, together with our SEA-ME-WE 5 and AAE-1 subsea cable resources to further extend to Asia, which is an important milestone of our global development strategy," said Jessica Gu, Director & Chief.
