

Monaco Optical Cable Terminal Box 4 Cores

Overview

The 4-core fiber termination box provides a stable, protective joint between optical cable and distribution pigtails at the end of fiber cables. It is typically used in cabling work area subsystems. 0mm fiber cable and splice up to 4. The 4 port FTTH termination box is a professional enclosure designed to provide a reliable and efficient fiber termination solution for indoor fiber-to-the-home applications. It serves as an indoor fiber outlet, connecting drop cables to end-user devices and ensuring stable, high-speed optical. 4 Port Fiber Termination Box is designed for FTTH (Fiber to the Home) system applications. The fiber splicing, splitting, distribution can be done in this box, and meanwhile it provides solid protection and management. Optical fiber outlet box is a user terminal product that implements fiber to home solutions. It can be opened easily by pulling the plastic lock and it also can be deployed for 4 cores SC or 8 cores LC connections as per the FTTH.
