

# Mozambique Fiber Optic Distribution Frame 24 Cores

## Overview

The Optical Distribution Frame (ODF) 24C 1U SC, loaded with SC simplex adapters, is a compact and efficient fiber optic distribution solution designed for streamlined connectivity and cable management. It provides fiber fixing, splicing, termination, patching, and cable management in telecom rooms, data centers. Fiber Management Tray also called ODF Distribution Box, Integrated Splicing and Distribution ODF. It is mainly used for cable inlet, grounding and fixing and the splicing between the terminal end and pigtail. This specific ODF configuration is optimized for SC connectors and offers the following key. ODF-D is widely used in the city and country cable network, the data and graph transfer system, the CATV wired TV series. It is made of cold-rolled steel sheets by electrostatic plastic spraying with proper structure and neatly looking. The front panel is with 24 ports and this fiber optic ODF can fit different kinds of fiber optic adapters on the panel.
