

New high-density 19-inch chassis available now

Overview

The Perle MCR1900 Media Converter Chassis is the most reliable high density modular chassis system available today. It is ideal for enterprise and campus environments where multiple points of copper and/or fiber integration are essential. An end-to-end copper to copper, copper to fiber, multimode. The InoNet 19 inch rack chassis are dimensioned according to height units (U). These enclosures are often used in rack mounting, e. Packaging solutions engineered using modular design methodology providing countless combinations of card slot count, backplane architecture, power, cooling, height. TPS develops custom 19" power cabinet solutions for high-density integration of programmable power supplies and industrial control systems. The focus of this category is on configurable cabinet architecture rather than fixed standard enclosures. Depending on project requirements, cabinets can be. With its modular design, Moxa's TRC-2190 series provides 18 slots for Ethernet-to-fiber management slide-in modules and may be used as stand-alone devices at field sites. Based on the nVent SCHROFF Interscale platform and developed in accordance with IEC 60297-3-109. The stock quantity shown reflects current availability, but it can.
