

Optical Module zt

Overview

The ZTE 10Gb 1310nm SM 10KM SFP+ Module is a high performance optical transceiver, designed for single-mode fiber links up to 10km. 25G 1310nm SM 10km SFP Optical Module EOLS-1312-10-D SP-GB-LX-CDFM-ZT Features Applications Specifications This 033030100016 is 100% genuine ZTE product. It won't have any compatibility problem with your ZTE devices. Optical modules typically have an electrical interface on the side that connects to the inside of the system and an optical interface on the side that connects to the outside. Integrated circuits and reference designs help you create a smaller and faster optical module design used in high-bandwidth data communication applications. Ideal for telecommunication networks requiring high speed and efficiency. Any project inquiry or support needed?

Contact Us NowAs an essential component of optical fiber communication, optical modules are optoelectronic devices that facilitate the conversion between optical and electrical signals during the transmission process.

Front panel optical module MSAs
On-Board Optical module MSAs
Users of Optical Modules

An optical module is a typically hot-pluggable optical transceiver used in high-bandwidth data communications applications. Optical modules typically have an electrical interface on the side that connects to the inside of the system and an optical interface on the side that connects to the outside world through a fiber optic cable. The form factor and electrical interface are often specified by an interested group using a multi-source agreement (MSA). Optical modules can either plug into a front pa

Original ZT E Optical Module SM-10KM-1.25G SFP 1310nm C+ C

Product descriptions from the supplier
Specification Type OLT SFP Model Number SM-10KM-1.25G SFP
Place of Origin China Brand Name ZT E Use FTTX Warranty Time 1 Year
Network Optical line

ZTE SFP GPON OLT C++ ZTE SFP C++ price and

ZTE SFP GPON OLT C++ optical transceiver is designed to work together with GPON-type optical line terminal such as C320 C300 ZTE. ZTE GPON-OLT

Genuine ZTE Transceiver Modules

Buy Genuine ZTE Transceiver Modules from GenuineModules with best price and fast worldwide shipping.

Zeta Beam Xtra Motorised Reflective Optical Beam Smoke Detector

Building movement and accessibility have in the past, made beam detection unreliable, difficult, time consuming to commission and hard to maintain, but now by using the advanced motorised

What Is an Optical Module and Its FAQs (V200)

What Is an Optical Module and Its FAQs (V200) Describes what an optical module is and FAQs, including the fundamentals, appearance and structure, key performance counters, common types,

Everything You Need to Know About Optical Modules

Optical modules are electronic devices used in communication systems to transmit optical signals. These modules convert electrical signals into optical

MODULE 10Gb/1310nm SFP+ sm Optical Transceiver Mod. 10KM ZTE

The ZTE 10Gb 1310nm SM 10KM SFP+ Module is a high performance optical transceiver, designed for single-mode fiber links up to 10km. Compatible with ZTE equipment, it is ideal for

Buy ZTE PON Optical Module Best Price

ZTE PON Optical Module includes GPON Optical Module, EPON Optical Module, XG-PON Optical Module, XGS-PON Optical Module, XG-PON& GPON Combo PON Optical Module, XGS
