

PZ30 Distribution Box Specifications and Price

Overview

PZ30 lighting distribution box for 230/400V, 50Hz circuits up to 100A. Meets national low-voltage standards. It is used for power and lighting distribution, motor control, as well as overload, earth leakage and. The PZ30 lighting distribution box is suitable for single-phase and three-phase circuits with a frequency of 50Hz, rated voltage of 500V or below, and a load current not exceeding 100A. It realizes power distribution and triple protection. PZ30 Power Distribution Protection Box is a professional Meilan plastic power distribution protection enclosure and consumer box, available in flush mounting and surface mounting options. The built-in electrical switch components are all. PZ30 Series Illumination Distribution. ♦ All external fastening components are constructed from stainless steel, while sealing components are made of silicone rubber, offering resistance to oil, acids, alkalis, high temperatures, and aging. ♦ Made of high-strength stainless steel, featuring.
