

Price list for 7mm four-core optical fiber cable

Overview

Looking at a typical 4 core fiber optic cable price list from OWIRE, prices start around \$0.40 per meter for basic indoor distribution cables and can go up to \$1. A 4 core fiber optic cable contains four individual optical fibers—typically two for transmitting and two for receiving data—encased within a protective sheath. This configuration supports duplex communication and provides redundancy, making it suitable for both single-mode and multimode. Fiber-optic cable materials typically cost \$1 to \$6 per linear foot, depending on fiber count and cable type. Single-mode fiber costs less per foot than multimode fiber, but it requires more. Fiber optic cable is designed to transmit data using light signals instead of electricity, making it faster, more secure, and immune to electromagnetic interference compared to traditional copper cables. Get latest prices, models & wholesale prices for buying Finolex Optical Fiber Cable. Fiber Optic Cables are available at Mouser Electronics.
