

Price of a 42-meter communication tower

Overview

Telecom tower pricing typically ranges from \$15,000 to over \$150,000 for the structure itself, heavily dependent on height, design type, and current global steel prices. A standard 40-meter lattice tower might cost significantly less than a camouflaged monopole of the same height due to design. Tower, Steel Tower, Steel Structure, Steel Warehouse, Telecom Tower, Transmission Tower, Street Light Pole, Substation, Steel Pole, Monitoring Pole Basic Info. Company Introduction: Shandong Huahui Communication Technology Co. It is specifically designed for indoor use - anywhere ladders are insufficient, but electric platforms would be unnecessary or impractical. Standing at 42 meters (approximately 138 feet), these towers provide elevated platforms for equipment, observation, energy generation, and storage. Their height enables enhanced coverage. We support solutions for all types of communication towers. 1 Three-Legged Angular Steel Tower □A cost-effective and economical option.
