

# Router s fiber optic light is red can I access the internet

## Overview

For LOS (Loss of Signal) red lights on fiber or advanced gateways, it usually means the incoming optical line is not detected or has low signal. Double-check that the fiber line is connected properly and that there's no bend or physical damage. When it's green and steady, everything is fine. What does it mean by Internet Light Red On Router?

Our router's lights are. What Does a Blinking Red or Orange Light on a Router Mean?

A blinking red or orange light typically signals an issue with your internet connection or router configuration. A red light on your router can be a source of frustration and confusion. Sometimes it may be due to a problem with your internet service provider, although you could also be experiencing this issue due to improper configuration of your router, a poorly connected cable, etc.
