

# The router does not have an optical fiber connection

## Overview

Check the documentation for your fiber optic connection or ask your internet service provider whether it is an active fiber optic connection according to the standard ITU-T G. It is not possible to use the FRITZ!Box with a passive fiber optic network (ITU-T. It depends a lot on the specific ISP, many (most if not all) will provide a device (ONT or Optical network terminal) that may come in the form of a “black box” with the fiber IN and an ethernet port for you to connect to, other may provide their SFP module (that you can use in your own router SFP. I have recently bought a new router (Huawei AX2) and it doesn't have an optical fibre port like my old one. Is there any adaptor I could use and if yes, what is its name?

Fiber connections are a new ball game. what died?

Your ONT -- Converts Fiber to Ethernet -- generally. I need information on what settings I need to configure on my router to access Internet via fiber optic modem. I never received it from Telekom, as well as Access number (Zugangsnummer). Despite multiple attempts, the Archer AX6000 v1. This comprehensive guide combines industry standards with field-tested practices to ensure you achieve a rock-solid. The Internet in FunBox is, after connecting to PS 4, the Internet works, the same on a laptop (all via ethernet), wifi works (currently it is the only way to connect the Internet to a PC (USB tethering via the phone)). No LAN connection lights are on, neither on the router nor on the LAN slot on.

## Article Content
