

What wireless router should I use for a 500m fiber optic connection

Overview

The best router for fiber internet is one that matches your plan speed, home size, and how you use your connection. Our top overall pick is the Netgear Nighthawk RS700S, a Wi-Fi 7 router built for multi-gig fiber plans that handles up to 200 devices across 3,500 square feet. Many major ISPs, such as Verizon and Xfinity, offer fiber connections directly to your door, known as FttP or Fiber. That's why we're here to present to you the top 10 routers in the market that are specifically designed to deliver a blazing-fast 500mbps internet speed. Get ready to enhance your online experience with the best router for 500mbps, as we dive into our comprehensive review and buyer's guide. Future-proofing improves network longevity since Wi-Fi 6E and Wi-Fi 7 routers. A good router designed for fiber-optic connections will remove bottlenecks, maintain stable speeds, and provide reliable coverage throughout your home or office.
